"Wishing Well"

Visit "[Wishing Well](#)" on MotoLyrics.com

Wishing well, wish me well
On a dream bought with a penny
Wishing well, time will tell
I can see that there are so many
Lonely faces stare from your pool
And I can't bear to see a fool tonight
So make it right wishing well

Wishing well, could you tell, as I stood beside her
Did you know she would go
Then why did you hide it
If you knew then I'd be without her now
You could have let me know somehow
Can't wish and tell, wishing well

Wishing well, cast a spell, send her love's sweet
emotion
Do your part, touch her heart with truest devotion
If there's a chance, I won't believe we're thru
Show me wishes still come true
It's up to you, wishing well
Show me wishes still come true,
It's up to you, wishing well
Its up to you, wishing well
It's up to you, wishing well
