[Hook]

You know my cat's got your tongue
And there's really nothing bad you can say to me
Because my cat's got your tongue
And the only way you talk is with your body
You know my cat's got your tongue
And I can tell that you're thinking real freaky
Because my cat's got your tongue
So just come over here and show me what you'll do to me

[Verse 1]

I like (The things you say, the game's you play)
It's alright (That you bring some alizã©)
'cause tonight
It's time to chance, let's be more than friends
Are you ready?
To do other things you said that you would do

[Hook]

You know my cat's got your tongue
And there's really nothing bad you can say to me
Because my cat's got your tongue
And the only way you talk is with your body
You know my cat's got your tongue
And I can tell that you're thinking real freaky
Because my cat's got your tongue
So just come over here and show me what you'll do to me

[Verse 2]

Show me (exactly what it is you have in store)
Bump me ('Cause boy I wanna show you how I flow)
Don't worry (I promise not to bite if you stick around all night)
Cause you look so good
Got me losing my mind

[Hook: 2x]

You know my cat's got your tongue
And there's really nothing bad you can say to me

Because my cat's got your tongue
And the only way you talk is with your body
You know my cat's got your tongue
And I can tell that you're thinking real freaky
Because my cat's got your tongue
So just come over here and show me what you'll do to
me

[Bridge]

Hurry
For your love I'm yearning
Boy, you're just as lovely
Can control
Don't talk, give me your love

[Verse 3]

(Don't rush)
Boy I'm telling you to take your time
(Cause too much)
Of my love will surely blow your love
(So touch me)
You got my body shaking not rollin' in my head
So you can do what you like
And I'll stay the night

[Hook: 2x]

You know my cat's got your tongue
And there's really nothing bad you can say to me
Because my cat's got your tongue
And the only way you talk is with your body
You know my cat's got your tongue
And I can tell that you're thinking real freaky
Because my cat's got your tongue
So just come over here and show me what you'll do to
me
