This is a man's world!!.....
This is a man's world!!.....
I don't know if I'm the one that you should step to you
right now
Lets all come in he came up to me and wanted to know
my name
Slowly he proceeded to pick a lil game to me
Cuz when you came up in my face but now it's time to
check your place
Yeaaaaah... (he doesn't really care for you he's all for
me)
Why can't you see it aint me
You better get it right im not trying to fight
But if I have to I will yeah I think I might..
(if you wanna know if i can make a fool of you)
Baby girl walk around like she has no clue
You talking to the wrong one about this mess
So why do i even bother when i couldn't care less
Tell me why your man keep stalking me
Call me on the phone, keeps paging me
You know he doing wrong why you talk to me
And that's your man CHECK your man (this is a man's
world!!!...)
I heard about this things that he do to you
You up in my face what u wanna do?
We can take it there if you want me to
And that's your man CHECK your man
If he's your man
Then why the hell are u walking up on me
Just check him up cause i'm a lady not a girl who
booties with your call
Still i'm trying hard now to keep my sanity
But see im not about to sad about over some silly
situation that's long gone on me
(Ya better get out of my face before I make a scene)
See the trick is on you
You better get it right im not trying to fight
But if I have to I will yeah I think I might..
(if you wanna know if i can make a fool of you)
Baby girl walk around like she has no clue
You talking to the wrong one about this mess
So why even bother when i couldn't care less

Tell me why your man keep stalking me
Call me on the phone, keeps paging me
You know he doing wrong why you talk to me
And that's your man CHECK your man (this is a man's
world!!!...)
I heard about this things that he do to you
You up in my face what u wanna do?
We can take it there if you want me to
And that's your man CHECK your man (this is a man's
world!!!...)
Im all the time so crazy games
There's no need for you to try to run on meeeeeee
(Mystikal part)
Tell me why your man keep stalking me
Call me on the phone, keeps paging me
You know he doing wrong why you talk to me
And that's your man CHECK your man (this is a man's
world!!!...)
I heard about this things that he do to you
You up in my face what u wanna do?
We can take it there if you want me to
And that's your man CHECK your man (this is a man's
world!!!...)
Check your man (Check your man)
Check your man (Check your man)
