"I Might"

[Verse 1:]

He said that every now and then
You can get mean
And he said that
There are things that you just don't see
Tell me how hard he trys and trys(trys)
He can't hardly ever get you to crack a smile

[Bridge:]

You better be careful(watch out watch out watch out
wath out)
You gotta god man girl(watch out watch out watch out)
Cause the next time that I catch him feeling down down
I just might take him for a trip down to my town

[Chorus:]

You better treat I'm right
Cause if you can't then I can
Cause if you don't I might
You better hold on to your man
Keep it tight
Cause if you can't you know that I can
Cause you don't I might
You better hold on
You better keep him cause right cause I might take
your man

[Verse 2:]

Now I'm not usually down for homewrecking
But you not paying no attention to the way that your

A good man is so hard to find
He takes care of business
And on top of dat he's so fine
