I'm Tired
Of every night being alone
I'm Tired
Of all day calling your phone
I'm Tired
You never pay attention to me
I'm Tired
Of every night loosing sleep
I'm Tired
Your nigga's get more time with you
I'm Tired
Of stressing 'bout the things you do

I'm Tired, Girl if you're tired
Say you're tired, cause I'm tired of crying

I'm tired of you playing
I'm Tired of excuses
I'm Tired believing
I'm Tired of you lying
Don't know if you're truthfull
Don't know if you're cheating
But you got the awnsers
And I'm tired of questions
And I'm here to tell ya
That this time it's over
This time I'm leaving
This time I'm gone now

I'm leavin' this
I'm leavin' this
I'm leavin' this
I'm leavin' this
I'm leavin' this shit alone
And you gon' miss me once I'm gone

[Chorus]

I'm out in these streets tryina eat.
Why in the world is this girl fuckin' wit me?
See I'm on the grind and shit It take time

If you wanna dip, gone leave
And don't pull that laundry mat shit on me
Then here dis girl that you call your hommie
She be all up on my collar
And When you aint here she tryina holla
Maybe I aint love you like i coulda
You didn't appreciate me like you shoulda
I'm tired of breakin up then making up
This time it's ova

I'm leavin' this
I'm leavin' this
I'm leavin' this
I'm leavin' this
I'm leavin' this shit alone
And you gon' miss me once I'm gone

[Chorus x3]

I don't know why this girl is trippin
always trippin on me you were my girl
you were my friend use to be my hommie
Hand me my keys I'm out the door
grabbin my Louis Vuitton bags and my coat
[Repeat]

I don't know why
I don't know why why why
Everything I do I make her cry cry cry
And I wish that she could stay by my side
But it seems like we just let eachother down...
