"Really Nice Guy"

A different face for everyone you meet. I've seen it oh so many times. Isn't it cute the games children play. I expected nothing less from you. I've seen your ever so convincing smile, and I've heard your ever so convincing lies. Tell them all the things they want to hear. False sincerity goes a lone way. Nothing different than the time before. I know the truth behine your lies. You are not what you make yourself out to be. How could anybody take you seriously. I don't understand how people could be so naive. I've seen your ever so convincing smile, and I've heard your ever so convincing lies. Tell them all the things they want to hear. False sincerity goes a lone way. Nothing different than the time before. It's obvious. You don't care about anyone else's feelings. You only care about your own. Just feed them lies. Just feed them lies. Just feed them lies. It makes no difference what to say anymore. I know it's nothing but lies. I know it's nothing but lies.
