(feat. Timbaland)

[Travis:]

I was just rollin with my friends saw this little thing  
And she turned me on don't know exactly wat she was  
doin  
Dying to show me face of an angel I can sense she can  
keep me up  
Til the break of dawn watchin the body and how it  
bends u can put it on me

[Chorus:]

Move and slide onto the floor while we stepin  
everybody stares  
Hot and it's on girl we gonna rock this room I just  
wanna know tell me does it feel  
Girl I wanna go tell me if I put it on u would u like that  
girl just put it on me  
Cause I like that fast on the slow hands on the wheel  
girl take control  
Tell me if I put on would u like that girl just put it on me  
cause I like that

[Kevin:]

Now that u got my attention watcha gonna do when I  
make my move  
I ain't gonna stop so no teasein are u tryin to kill me  
every guy in here wants to  
Know your name I'm sure it's luvly but I want u come a  
little closer and we'll exchange  
Now girl do u feel me

[Chorus x2]

[fade out]
