A very chilly ice milk  
It seems the world is off today  
You'll never see the way that I spill on my way  
With this very, very chilly, chilly ice milk  
I'll take this pill and swallow down  
Like an ice pick in bad weather  
We'll always get around

Down another cup of very chilly ice milk  
One, two, three, four, five, six, seven  
A chilly, chilly ice milk - I'm in heaven

Add a little sugar cube  
And a dash of salt  
With a little bit a cream  
My chilly chilly ice milk  
becomes a malt

Got a very chilly ice milk  
It seems the world is off today  
You'll never see the way that I spill on my way

You caused the heat  
To melt my cold ice drink  
Just after it had fell  
Who'll clean the drink that fell from my table  
Who'll lick the icy melt up?

Down another cup of very chilly ice milk  
One, two, three, four, five, six, seven  
A chilly, chilly ice milk - I'm in heaven
