Woke up this morning and felt no too cool -  
ooh ooh ooh ooh  
'Cause every time I tried to make my mouth  
move - ooh ooh ooh ooh  
The pain I'm having is so discomforting  
Please make this suffering go away  
Wo wo wo wo I told my mom what I was  
feeling  
And how long I've been dealing with it  
I knew it was coming, but didn't know how  
soon  
She said I've reached another adolescent  
monsoon - oon

OOoo Ahh... the pain is tremendous  
Why can't I take it like a man  
OOoo Ahh... the pain is horrendous  
Why can't you lend a helpin' hand

He was a well-educated man, had his degree in  
medicine  
I noticed his hairy hands... he was a very, very  
hairy man  
He looked right down in, shook his head and  
then said  
"these teeth must be pulled right away hey!"

OOoo Ahh... the pain is tremendous  
Why can't I take it like a man  
OOoo Ahh... the pain is horrendous  
Why can't you lend a helpin' hand  
OOoo Ahh... the pain is tremendous  
Why can't I take it like a man  
OOoo Ahh... the pain is horrendous  
Why can't you lend a helpin' hand

He turned around, rolled up his sleeve

I rolled my eyes then suddenly  
A horrible pain grew, the next thing that I  
knew  
The doc had pulled my wisdom teeth... OUT!

Well along with my teeth my money also left  
me  
As he made out the bill, I was moaning  
OOoo Ahh... the pain is tremendous  
Where the hell is my prescription.... of  
codeine?

Ooh but when will I speak, how long until my  
mouth feels natural?  
How long will they bleed, when will they heal,  
where's the real meal?  
How do you feel? How do you feel? How do  
you feel? How do you feel?  
How do you feel? How do you feel? How do  
you feel? How do you feel?  
How do you feel? How do you feel? How do  
you feel? How do you feel?  
How do you feel? How do you feel? How do  
you feel? How do you feel?

I feel good... I feel great... there's no pain...  
there's no ache  
I feel good... I feel great... just let me  
recuperate  
I feel good... I feel great... there's no pain...  
there's no ache  
I feel good... I feel great... just let me  
recuperate

Because the codeine has left me drowsy, leave  
me be... just let me sleep!
