We're so lucky
Still holding on
Just like venus and the morning sun
You and me got gravity

I don't know where all the time went
Light years and so many moons
So many close calls
Now I see a thousand percent
You meant what you said and it's good
'Cause everybody falls

A million miles and it fades
We're into orbit now we're safe
So don't you let go
Don't ever let me float away

We're so lucky
Still holding on
Just like venus and the morning sun
You and me got gravity

When it's feeling like a solar eclipse
In the shade it gets so cold
You think it'll never go
Exploding like a beat up rocket ship
Spinning so fast 'round the world
Wish we could make it slow down

A million miles and it fades
We're into orbit now we're safe
So dont you let go
Don't ever let me float away

We're so lucky
Still holding on
Just like venus and the morning sun
You and me got gravity
We're so lucky
Still holding on
Just like venus and the morning sun
You and me got gravity

And we can swim the milky way like star-crossed lovers do
I never really thought we'd ever make it out this far, did you?

Leave our story in the sky like star-crossed lovers do
Spent a million lost in space, me and you, me and you...

We're so lucky
Still holding on
Just like venus and the morning sun
You and me got gravity
We're so lucky
Still holding on
Just like venus and the morning sun
You and me got gravity
