The ocean spray veils me  
From all points of view  
My camouflage costume  
Helps me hide from you  
I creep around at night  
For some doses of fresh air  
And ain't it just amazing  
No one can sense I'm there

#### CHORUS

I can live  
Under the radar  
I can survive  
Under the radar  
My social life  
Leaves something to be desired  
But I'm quite happy  
Away from you

I'm reasonable content  
In my ingenious disguise  
It suits my styles and tastes  
To be far from prying eyes  
I'm such a little trickster  
Giving everyone weird feelings  
They get so freakin' freaked out  
Metaphorically a chameleon

#### REPEAT CHORUS

Creeping, crawling  
Right in front of your nose  
How nobody knows  
Doesn't surprise or affect my well-being

#### REPEAT CHORUS \* 2
