(Girl) God I love you...
you live to criticize me
(whisper) criticize me
forget truth, minimize me
(whisper) minimize me
won't reasure my mind
hold what I tried to find
I'm just sinking down...down...down....DOWN

But will you call

wicked thoughts parlize (parlizing)
hate to love partonize (patronize)
still won't believe my mind
and deep within to time
why don't you understand me... me... me...ME

so I let you go

I'm drowning in the sea of my mind
I'm saving everything I left behind

(open your eyes, critize, sacrifice, paralyze, finalize)

(girl) God I love you
so I let you go

I'm drowning in the sea of my mind
I'm saving everything I left behind

I'm drowning in the sea of my mind
I'm saving everything I left behind

(critize, sacrifice, paralyze, open up your eyes)
