### Verse 1

Standing there staring down  
He's six feet under but  
He's still proud and  
Waiting for the roses in his  
Procession to fall down at my feet

### Bridge

He said he wouldn't leave me  
He said he wouldn't go  
Even though he saved them  
He wouldn't even know  
Can anybody bring him back to me?  
Can anybody bring him back to me?

### Verse 2

Standing there staring down  
He's six feet under but  
He's still proud and  
Waiting for the roses in his  
Procession to fall down at my feet

### Bridge

He said he wouldn't leave me  
He said he wouldn't go  
Even though he saved them  
He wouldn't even know  
Can anybody bring him back to me?  
Can anybody bring him back to me?

### Chorus

Here I am I stand alone  
Dressed in black who would have known  
His days are done and death has won  
Someone please now save me from.  
Someone please now save me from.  
Here I am I stand alone

Dressed in black who would have known  
His days are done and death has won  
Someone please now save me from.  
Someone please now save me from.

### Verse 3

Broken hearts, broken dreams  
These are the days that  
You should of seen and  
Holding on for one last  
Kiss from the on I love  
Before he goes away

### Bridge

He said he wouldn't leave me  
He said he wouldn't go  
Even though he saved them  
He wouldn't even know  
Can anybody bring him back to me?  
Can anybody bring him back to me?

### Chorus

Here I am I stand alone  
Dressed in black who would have known  
His days are done and death has won  
Someone please now save me from.  
Someone please now save me from  
Here I am I stand alone  
Dressed in black who would have known  
His days are done and death has won  
Someone please now save me from  
Someone please now save me from
