Another ninety bucks

Down the drain

I can't slow down

14 hours away so put on

"this is just the beginning"

And let it play

As we drive into the night

On a quarter tank of gas

It won't last

But everything is gonna be alright

No not this time around

Is what I tell myself

No not this time around

Just let the record play

No not this time around

I'm not letting up

No not this time around

Just let the record play
