

No Harm Done "A Radio With Guts"

This keeps me going on and on
Hoping for some change
Another 14 hour drive
Another thousand miles go by
Somehow it's worth the pain
Somehow it's worth the strain on me

The endless days make my time worthwhile
The endless days just fuel my rage

These 4 chords will give life
To these walls tonight
These 4 chords will tear down
These walls tonight

This keeps me going on and on
Hoping for some change
Another city, another show
Another half hour of what I know
Somehow it's worth the pain
Somehow it's worth the strain of me

Just sing with me
Cause this is all we have
And I'm losing my voice
