

No Harm Done "Bastogne"

Visit "[Bastogne](#)" on MotoLyrics.com

We're going down our hope has drowned
Tonight we don't need this now
It is so far from what it needs to be
This is dead to me
In my head dreams of hope
But we can barely cope
Adrift in open water
Surrounded by the night
I'd rather sink at sea alone
Than let your scene survive tonight
We don't need your scene
Your dreams
It's so far from what it needs to be
We don't need your scene
We don't need your dreams
It's so far from what it used to be
Cast the sails to another day
Just let our dreams all fade away
We're going down our hope has drown
