"No Compromise"

Can't you see all the filth
That we allow to come into our lives
Don't you know how it kills
It makes it's way and cuts us down to size

No, no compromise
Don't let it come down to infiltrate our lives
No, no compromise
Pushing every single sin aside

Do you feel out of place
When people ask you why you live this way
Instead of backing down speak out
What your own heart and soul would say
Jesus said to be free from this world's immorality
Don't give in to the old dragon
Who wants only one foot hold
