

No Harm Done "The Stranded"

Visit "[The Stranded](#)" on MotoLyrics.com

Chills run up my spine
The forgotten sun won't shine
Lonely nights just seem to slow
And they hold me back
They hold me down
We're all stuck on solid ground
The cities fade
As I watch life fall away
Out of step and out of mind
Your happiness I just can't find
Never been the kind to say I'm sorry
Never had the time to say goodbye
Never will I keep that promise
No I won't ever see the sky
