f/ Dug Infinite

[Dug Infinite]

Yeah, yeah, yeah, yeah

Yeah, yeah, yeah

Yo can't you tell that this hip-hop shit, be on the spiral

Make me set up shop, I keep it hot like a pyro-

-maniac, the reason is mainly that, a lot of cats

they lack, format and structure when they rap

It's like a mission, who wants to get rich without a stencil?

Who told you a million was fly as your closest pencil?

Chasin cash, I'm chasin tools, think about it

Chasin ass, I'm breakin rules, a visionary

Legendary in my own right, give off my own light

I use my own sight, my vocals vibrate then take flight

through the air blaze your eardrum what you hear sums up

the light reflected off of the moon, makes me the sun

Plus you the sun - soon as my record is spun

I rotate at thirty-three and a third like six tons

Just followed by twenty-one ciphers, centrifugal force

got me trapped on earth, like a lifer

'Til death do us part, what else could this be?

Nothin else could this be but fate, or destiny - yeah

[Chorus]

Yeah, is it fate or destiny?

I walk a tightrope tryin to find insanity

How can it be, that the sun don't shine on darker days?

It penetrates my soul, in better ways

Well, is it fate or destiny?

I walk a tightrope tryin to find insanity

How can it be, that the sun don't shine on darker days?

It penetrates my soul, in better ways

[No I.D.]

Yo yo, it's purely educational, I'm big wheelin like
Infinite

on the skate you know the way that we do it we cue it
and set it off

Drop the buried treasure, dig in every measure

It's for the people's pleasure..

B-boy virtuoso, never comin so-so, I'm oh so

ready and steady, got the beats to keep you sweaty

It's ghetto - precise never falsetto

Keep your next move in the tempo's allegretto

Yo bounce to it, yo as I keep every ounce fluid

Touchin on your brain with extra points of pain

It's Infinitely, D-U-G, No I.D.

Yo and incidently, I do my thing you can't prevent me

Cause innocently, I ruggedly and gently
master skill and art just like a sensei
Handle competition that's against me, my content be
intense that's how I make my fate, or destiny
[Chorus: repeat 2X]
Yo, is it fate or destiny?
I walk a tightrope tryin to find insanity
How can it be, that the sun don't shine on darker days?
It penetrates my soul, in better ways
Well, is it fate or destiny?
I walk a tightrope tryin to find insanity
How can it be, that the sun don't shine on darker days?
It penetrates my soul, in better ways
[Outro]
Hip-hop ain't goin nowhere, b-boys will never die
Uhh.. Chi-Town, town-t-town-town town town
Yo, you know the name, you know the game, check it
out now
Two thousand, rock on, like this yo
Like this yo, uhh, uhh, yeah..
Watch out! Watch out
