You're my everything
You're my wildest dream
I'm a summer breeze
On your tender skin
You're my everything
The heart of my desire
You're my everything
You're the world to me
You're my song to sing
Perfect harmony
You're my everything
You've set my heart on fire
I love to seize ? the first day that I kissed you
Do never leave, I never wanna miss you
I'll do anything, no one will ever love you better
These words of love I wrote you in a letter
You'll always be the heart of my desire
When we touch the flames are even higher
I shiver inside, can't deny the magic power
I need your loving every minute every hour
I wanna be your one and only lover
I'll make you see we belong to one another
My affection is strong, much deeper than the ocean
Flyin high - high on emotion
Give me a smile
I'll take you up to heaven
Say what you want
I'm gonna make it happen
You will always mean the world to me
You know it's true
Baby I was made for loving you
I'm addicted to your love forever
Hope you feel the same affection, too
I was made for loving you
We'll survive the highs and lows together
I will shelter you from stormy weather
I will always make your dark sky blue
I was made for loving you
My baby
I wanna be the victim of your loving
Do never stop the burning ?

Keeping you close ? , I'll never wanna hurt you
You'll understand I'll always be there for you
I wanna be your one and only lover
I'll make you see we belong to one another
My affection is strong, much deeper than the ocean
Flyin high - high on emotion
Give me a smile
I'll take you up to heaven
Say what you want
I'm gonna make it happen
You will always mean the world to me
It's everything you do
Baby I was made for loving you
I'm addicted to your love forever
Hope you feel the same affection, too
I was made for loving you
Give me a smile
I'll take you up to heaven
Say what you want
I'm gonna make it happen
You will always mean the world to me
You know it's true
Baby I was made for loving you
I'm addicted to your love forever
Hope you feel the same affection, too
I was made for loving you
Made for loving you
We'll survive the highs and lows together
I will shelter you from stormy weather
I will always make your dark sky blue
I was made for loving you
I was made for loving you
