See the full moon
We look at it's face
It'll be me looking at you
Glad to be in one place
See the full moon
We look at it's face
It'll be me looking at you
Imagine ourselves alone in the world
Still couldn't agree on anything
Lying to each other wouldn't do
Cause we own each other's memories
Spend all our days
If we pack and away ?
Our decision is complete
Baby, let's say goodbye
When you look up to the sky
And see the full moon
We look at it's face
It'll be me looking at you
Glad to be in one place
See the full moon
We look at it's face
It'll be me looking at you
See what we've done
And you feel where we've gone
Let's not spoil the good we have
Lost the fear, lost the faith
Imagine ourselves alone in the world
We'd be bored to tears
Baby, let's say goodbye
When you look up to the sky
And see the full moon
We look at it's face
It'll be me looking at you
Glad to be in one place
See the full moon
We look at it's face
It'll be me looking at you
Glad to be in one place
See the full moon
We look at it's face

It'll be me looking at you
See the full moon
Uh...the full moon...
