

## No Knife "Mission Control"

Visit "[Mission Control](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Mission control, mission control  
Are you receiving? we've got a problem, in every sense  
of the word.  
Come in, mission control.  
Permission to land, i'm taking her down. thrusters on  
full.  
...mission control  
Radio silence. ending transmission. someone else  
here.  
If i don't return, remember the code.  
Forget what you've seen. forget what you heard.  
Forget what you know.  
Red light, green light  
Everything freezing, floating and weightless  
No one receiving, abandon your stations  
Everything freezing, floating and weightless  
Emergency landing, abandon your stations  
Mission control, mission control  
Come in, do you read me? we've got a problem, in  
every sense of the word.  
Come in, mission control.  
Critical damage. monkey's a goner. we're heading for  
home.  
...mission control  
Radio silence. ending transmission. our friends have  
returned.  
If i don't come back, remember the code.  
Forget what you've seen. forget what you heard.  
Forget what you know.  
...come in, mission control...
