

No Knife "Short Term Memory"

Can't force the issues
Running over the old safe ground
Kick out the missives
Keeping up with the pack
Feels nice to run away sometimes
But now it's time to stand my ground
Fuck talking, so long.
You preach away and carry on with all the folks
That you know.
Can't force the issues
Running under the old safe sound
Kick out the missives
Keeping up with the pack
Feels nice to run away sometimes
But now it's time to stand my ground
You fucking talker, so long
Preach away and carry on with all those fucks
That you know.
Don't let those from the outside in-
Short term memory.
Watch your mouth, boy.
