"My Time"

I've recently been thinking of, the time I spent with you
And though I dedicate my time I still don't see the truth
No I still don't see the truth
So how long will it take me to say
Where have I, wasted all my time?
On you!
Are all these feelings true?
Somethings you're just not supposed to do
To the ones who care for you
This relationship jepordized
Those same falts seemed to rize
And I still don't see the truth
So how long will it take me to say
Where have I, wasted all my time?
On you!
Go!
You took, what was good before
Instead of me, you still wanted something more!
Where have I, wasted all my time?
On you!
Are all these feelings true?
Are all these feelings true?
Yes, but not for you!
