Old man walking, taking forever
To get to a destination
Old man walking, taking forever
To get to a destination
Ten minutes from the front door
And he's not sure where he's headed for
Old man walking, taking forever
To get to a destination

Old man talking, and it's taking forever
To get through a conversation
Old man talking, taking forever
To get through a conversation
Talk about the weather
Talk about the time they spent together
Old man talking, taking forever
To get through a conversation

Old man gawking, but it's taking forever
To make a simple observation
Old man gawking, and it's taking forever
To make a simple observation
He sees this and he sees that
But he's not sure what he's looking at
Old man gawking, taking forever
To make a simple observation
To get through a conversation
To make it to his destination
