When will people just realize the social trend has
subside
The Circumstance has gave way it can lead you in
Suddenly I've been seriously thinking about
(What's right!) And obviously it comes to my mind
(Scarred for life!)
These kind of actions have scarred my life
Upset cause you don't wanna
Take a look at The side of you,
The side that you once held true,
The side you once held true,
The side you once held true!
Well now you say that you're having fun
It's just your own way of feeling good
But how much fun can it really be?
With STDs and teenage pregnancy
I've been seriously thinking about
(What's right!) And obviously it comes to my mind
(Scarred for life!)
These actions have scarred my life
Upset because you don't want to take a look at the side
of you,
The side that you once held true,
So many people they think it's so cool,
At age 13 it's never gonna turn,
It's never gonna turn it's the way it'll stay
Why can't they see,
Why can't they see,
Why can't they see In the end they'll be,
(Scarred for life!)
In the end they'll be, (Scarred for life!)
In the end they'll be, (Scarred for life!)
In the end they'll be, (Scarred for life!)
(Scarred for life!)
