It was the first time I saw you  
I wanted to know you name  
My heart was beating so fast  
It is driving me insane.  
You walked so close to me  
I can feel the way you breath  
You look so good to me  
You sexyness knocks me off of my feet.

(chours)  
Eternal love  
That's what you are  
Near or far  
Stay in my heart

I don't even think  
I can leave my life without you  
Cause everytime I think of you  
I knew my love was true  
As I lay on my pillow at night  
You the only one I dream of  
I close my eyes and think of you  
In eternal Love

(chorus)

(change)  
Everytime I see you  
I just close my eyes  
And think of me and you  
I just want us to be together  
For every cause baby me love is so true.  
(repeat)

Eternal lo--oo-vv-ee

(chorus)

I
