Well this life has been twisting round a murder scene
you gimme gimme that
attention when im never seen
say hello when I wave out from the tv
screen
cause all these little little moments were my perfect
dream yeah
oh im
busting the attention from the ladies there
while its a secretly combusting
life I shouldnt care
scandalising inner cases is a big mistake
cause you are
royalty with loyalty from me at stake now

put on the smile and the beauty
face yeah
(go go go go go go)
you got these things others can only chase
yeah
(go go go go go go)
right?

Sleeping all in silk
taking honey with
my milk
is it heaven after all?
Well then I really really really wanna
fall

I only whisper cause they re breathing too loud
is this another fuckin
joke I should have understood
baby im running out of condoms and its your turn
soon

close the door if you choose to rather go away
yes im a million billion
people stuck inside this play now

put on the smile and the beauty face
yeah

(go go go go go go)
you got these things others can only chase yeah
(go
go go go go go)
right?

Sleeping all in silk
taking honey with my milk
is
it heaven after all?
Well then I really really really wanna fall

I feel
like tearing this apart
I feel like tearing this apart
cant hear that shit go
when you talk
how bout I blow this whole place up?
Suck ups wont tell me how
I feel
this is yeah this is mine to deal
suck ups wont tell me how I
feel
this is yeah this is mine to deal

Sleeping all in silk
taking honey
with my milk
is it heaven after all?
Well then I really really really wanna
fall

but then I really wanna fall x4
