Late night I just wanna
(Get it, get it)
Break free feel no drama
(Get it? Get it?)
Taste me you just wanna
(Get it, get it)
Brain freeze ready come on
(Get it? Get it?)

I was really trying to behave but things were moving
Baby moving baby
Told the world to leave us alone but it's intruding
Baby intruding baby

Take a moment there
Educate me
I'm a stolen
Good confiscate me
I don't really know
Where I'm lying
Gotta dig now dig in
Deep to find me

I was really trying to behave but things were moving
baby
Moving baby
Told the world to leave us alone but it's intruding
Baby intruding baby

Tell me
Do you believe we re making
Something
We re surely end up hating
Drunk in my need to please

I was really trying to
Behave but things were moving baby moving baby
Told the world to leave us
Alone but it's intruding baby
Intruding baby
