Lyrics: Petit

Music: Clement, Antonio, Pouchin

I perceive in the distance, as if I woke up from a coma,  
My eyes are blurred, parasites obstructing my vision.  
My body is cold, I am n olongerr breathing, can't feel  
my limbs  
Where am I???

Hanging from an endless chain, I follow the stream of  
corps  
Implanted objects running through my body  
Data programmed in my memory  
I've left the recycler, memberr of the bioomechanoid  
army  
Programmed to serve the master dynamo

Data programmed in my memory

Refrain:

I'm his slave, I owe him my resurrection

Pieces of familiar images going through my head  
Implanted dream changing for reality  
Data programmed in my memory

Refrain:

I'm his slave, I owe him my resurrection

Resurrection (x4)

I owe him my resurrection, I must destroy all human  
kind.

I'm his slave, I am programmed to kill

Data programmed in my memory
