longer days will never pay  
watching them go down no matter what i say  
does what i want to do  
make the timelessness ok  
come along come along

late at night through the smoke and the light  
i strain my eyes to see you  
if i decide just to put it aside  
i hope you'll be there too  
the boys aren't lost they're trying to find  
a way to make it through  
on a song on a song

if you would stay i could float right out this window  
and it means everything whether my world is up or  
down  
it won't be long before i never land again  
and all i want to know is you're around  
all i want to know is you're around

is it a sign i'm in front of the line  
i walk the plank in spirit  
the swallowed time is encroaching on mine  
i need you to steer me through it  
if i look back with you  
i would not want to undo it  
come along come along

if you would stay i could float right out this window  
and it means everything whether my world is up or  
down  
it won't be long before i never land again  
and all i want to know is you're around

a decade wasted  
if selfish or chastened  
do i seem complacent to you  
a lifetime away

if you would stay i could float right out this window

and it means everything whether my world is up or  
down  
it won't be long before i never land again  
and i hope that you'll be waiting oh you'll be waiting  
yeah i hope that you'll be waiting on the ground.
