You can read me just don't page ahead
You're better off indifferent with everything I once said
Like I am so straight talk me please
I'm living in a haven for insanity pleas
Communicate this so we can be
Agreed that it remains judgment free
'Cause pain is untold and felt alone
We ran through the cold to find our way home

In spite of all my doubts I'm breathing
Yet my earth is shaking ground
In the absence of your sound I'll breathe in
But there's nothing to be found

And in the perfect company
Nobody cares about tomorrow
We're living our biography
With memories to follow

Add me up subtract the past
The energy was negative but didn't seem to last
To a brand new day where I'll start from scratch
I'm finding out my everything is something I've gotta
have
But I'm stuck on you and this fuckin' place
This entire experience is straight from grace
A sound is made if there's no one listening
But the time won't tick if I don't pay attention

In spite of all my doubts I'm breathing
Yet my earth is shaking ground
In the absence of your sound I'll breathe in
'Cause there's nothing to be found

And in the perfect company
Nobody cares about tomorrow
We're living our biography
With memories to follow
Us to bed and they'll plagiarize our death

I'll breathe in
And every day is a fresh new danger

You wanna run but you're stuck to the floor
And though you know you just cannot stay here
When you're gone you'll be back for more
