This one comes to you straight from the hills  
Now tear up the floor with them dancing skills

We've got to reach, got to reach for our dreams  
We've got to tear doubt apart at the seams  
Well if you wanna know what I've got left in me  
It's trouble and more trouble man  
For any man that steps on my dreams

Well so many times I've tried so many times denied  
Now I've got this pressure on me  
So I call upon the pressure drop trying to make it stop  
And from stress I'm set free  
Well I'm a pessimist I need this lift gotta be quick to  
bust a riff  
That'll bring me some peace  
So please please please don't stand in the way off my  
dreams

We've got to reach, got to reach for our dreams  
We've got to tear doubt apart at the seams  
Well if you wanna know what I've got left in me  
It's trouble and more trouble man  
For any man that steps on my dreams

When you're old and gray and you finally realize what  
that secret is  
It will be too late your chance will have already been  
missed  
After all we all just got one life to live  
So be great and take all your chances

We've got to reach, got to reach for our dreams  
We've got to tear doubt apart at the seams  
Well if you wanna know what I've got left in me  
It's trouble and more trouble man  
For any man that steps on my dreams

With a solid steady kick on a riff like this  
Originality's trendy so come back to basics  
You look lame when you pout  
Embrace doubt and you're out

To the rhythm of the snare put them hands in the air  
Got a dream in your heart now let your life be there  
Pull the sky to your eyes  
And let me hear you say KICK
