I burnt the morgue
I beat you to the punch
I'm crazed by thoughts
While you're busy having lunch
So I prayed

Eat dirt
I'll snack on the past
I'm underground
You're on the surface setting traps
So I stayed

Everything's so ugly
The way life made me
But it feels so lovely
We're living energy

It was dawn
And every single car was gone
And if you ever want to need me
I'm in the middle of the lawn

Everything's so ugly
The way life made me
But it feels so lovely
We're living energy

I'm telling you what
You're gonna get stuck
Don't try to run from the sun
You gotta react
You're gonna get trapped
Under the dirt and you're done
Crack open a new can
You're just a suntan
