The rain outside is just enough
To make me hide away.
The pain inside is just enough
To make me run away.
But every step that I take,
Is never enough to escape from here,
So I set myself to make me breakaway!

And if I can't understand to be the one
That's always in your mind!
Cause I am the one who stand
Can't escape from the line!

Lets start again and lets do it right,
Underneath the stars we'll dance tonight,
I'll hold you close and stare into your eyes!

Lets start again and lets do it right,
Underneath the stars we're gonna fight
I'll hold you close and stare into your eyes!

Forget the past, lets make this last,
The rain has gone...
I found again, I've lost the pain,
And now I'm staying here.
And every step that we take,
Will keep us moving until we make it...

Lets start again and lets do it right,
Underneath the stars we'll dance tonight,
I'll hold you close and stare into your eyes!

Lets start again and lets do it right,
Underneath the stars we're gonna fight
I'll hold you close and stare into your eyes!

Set myself to free!

Lets start again and lets do it right,
Underneath the stars we'll dance tonight,
I'll hold you close and stare into your eyes!

Lets start again and lets do it right,
Underneath the stars we're gonna fight
I'll hold you close and stare into your eyes!
