Let's pretend we never met
Forget just what to expect
Clean the slate, and reset
I'm pleased to meet you!

I'm jam packed, I'm full of wit
No wait, I mean the opposite
Whatever you want to fit
I want you!

I am left and I am right
I am darkness, I am light
I am peace that has to fight
I'll change for you
A paradox of my own feat
Neither precious or unique
Not just knowing who to greet
Or bid adieu

You are so fine, all the time
That's why I have to make you mine
Hope that this will change your mind
Come to me!

Feel insignificant, as I art
I'll be whatever you want
I'm fat, I'm sturdy, I'm gaunt
I'll make you see

I am left, and I am right
I am darkness, I am light
I am peace that has to fight
I'll change for you
A paradox of my own feat
Neither precious or unique
Not just knowing who to greet
Or bid adieu

But maybe
This changing
Estranging
Every part of me

Has made my
Own will die
Oh please, I
Please stay true to me

I am left, and I am right
I am darkness, I am light
I am peace that has to fight
I'll change for you
A paradox of my own feat
Neither precious or unique
Not just knowing who to greet
Or bid adieu

I am left, and I am right
I am darkness, I am light
I am peace that has to fight
I'll change for you
A paradox of my own feat
Neither precious or unique
Not just knowing who to greet
Or bid adieu
