

Noa "My Other Wing"

Visit "[My Other Wing](#)" on MotoLyrics.com

all night long
rumble,tumble, deep down under, under my skin

all night long
burning, turning, growing to be my other wing

all night long
maybe, baby, you'll be crazy, crazy for me

all night long,
sinking, thinking, wanting to grow, learning to see..

together we'll fly, all night long
together we'll fly, all night long..

all night long
break out, break in, now we're making life out of love

all night long,
maybe, baby, you will be all i'm dreaming of

all night long
touch me, shake me, gently wake me, teach me to sing

all night long
slowly, slowly, learning to be my other wing

together we'll fly, all night long
together we'll fly, all night long..

learning to be my other wing..
