"What I Need"

Visit "[What I Need](#)" on MotoLyrics.com

What I need is so much, what I need is over
Even when I sleep I just walk on the border

What I need too much is days
What I need too much is nights
What I need is lost in the lights

As long as I'm not satisfied, I try
But I don't even know what I try
What I need is not so simple
What I need is incredible
What I need is so much trouble

Where are you ? Sister, won't you appear ?
Sister, sister, sister, won't you appear ?
I give you all my love, give you all my soul again

What I need is never found
What I need is never done
What I need is ever wasted

What I need is so much, what I need is over
Even when I sleep I just walk on the border

What I need too much is days
What I need too much is nights
What I need is lost...

But sometimes I love you all
I'm so glad to live in this world
All your voices are gold
All your ideas come from God !
What I need is over
