There is a world, that is virtual and different.  
It can be so cold, make us stand up for what's right.  
Our hope through our life, is if we reset it to the start!

Here we are, going far, to save all that we love;  
If we give, all we've got, we will make it through.  
Here we are, like a star, shining bright on your world;  
Today, make Evil go away!

Code Lyoko, we'll reset it all.  
Code Lyoko, be there when you call!  
Code Lyoko, we will stand real tall.  
Code Lyoko, stronger after all!

A world of machines, it can shadow human nature.  
And all that we need, is the way to find the answer.  
But one thing is sure, you can count on us for good!

Code Lyoko, we'll reset it all.  
Code Lyoko, be there when you call.  
Code Lyoko, we will stand real tall.  
Code Lyoko, stronger after all!

We'll do our best, to never let you down.  
We're up to the test, to turn this world around!

Here we are going far to save all that we love  
If we give all that we've got we will make it through

Here we are like a star, shining bright on the world  
Today make evil go away

Here we are going to save all that we love  
If we give all we've got we will make it through (make  
evil go away)  
Here we are going far to save all that we love  
today(make evil go away)
