I see your eyes burning with passion
Tracing lines of quite silhouettes
In the failing light you fail to focus
Try to disappear
Following footsteps to the beginning
Start to understand the end

[2x]
Break out, break out
My eyes are feeling tired
Thanks to you
Thanks to you

Apart from everything
This heart wont let you in
Honestly this night was meant for you
So many lies, so little time

Paint these pictures into empty books
With pages burnt and bindings broken
With these colors that only seem to run
Try to make this clear
Desperate words and empty conversations
Take a look at what you've done

[2x]
Break out, break out
My eyes are feeling tired
Thanks to you
Thanks to you

It's so hard to get back up
When there's nothing left inside of us
Were here
Right now
We'll bring this crashing down

Apart from everything
This heart wont let you in
Honestly this night was meant for you
