A water current carries us in haste  
With the speed of a maelstrom  
Our only light created by the glowing seas  
As we advance to the unknown

Know, the abyss is here  
Feel the tight grip of fear  
As the creature draws near

See, enthralling light glowing  
Now, the portal is opening  
The stars decide: The rift is complete  
One time in a thousand years

To reveal the true force of chaos  
A formless thing a blasphemy  
A thousand tentacles  
With a thousand eyes  
All crawling to reach us

My hands have a light grip of my sword  
Now, there's no more fear  
Just a heightened sense of things

The priestess behind me  
With silent spells she calls her queen  
Umberlee, the dark mistress of the sea  
To aid us against what would undone reality

My magic sword slashing left and right  
Chopping tentacles in two  
And green blood flows  
But it is a matter of time till I'm caught

The eyes spinning, it is painful to look at  
As are the lost souls of mortals  
Staring in eternal horror and agony

The lord of chaos is trying to make me lose  
What remains of my sanity  
But I rage and slash and back again

As a tentacle grabs my leg  
I feel the pain - but I still fight  
I'll teach this thing how mortals fight  
And now a mortal bravely dies  
Before it holds my soul  
At the time my sword arm is caught  
And I paralyze, soon to be lost  
The waters shake, the spell is complete
