Beware-with the dark I ride as one. When my legacy I  
reclaim.

As a fallen god, with the lunar legions by my side  
On dragon wings I fly. Behold-the ethereal shades of  
night

Pletoric formations of dark dancing past the aeons of  
the eleusinian vast  
Within a dream, my honour to last, to sprout  
throughout my blood  
to strengthen my heart.  
The heaven tears apart as twilight shreds and thunder.  
With a vampire breath I whirl the frost, to storm within  
my kingdom to come  
Dead winter enthrones.

Vexilla regis prodeunt inferni  
As a phantom of night I ride, by thy side

The Archangels revocation of the dead  
The apocalyptic revelation  
The arrival of plague and death.  
The Armageddon revolution-to come

Astral sparks of fire, descending to ablaze

The landscapes drained by sulphur rain  
from the canopy licked by flames  
Shadows walks the earth, to ravish life and glee  
To walk the fields of reverie, sowing dark in dreams to  
be

Beware-with the dark I ride as one. When my legacy I  
reclaim.  
As a fallen god, with the lunar legions by my side  
On dragon wings I fly. Behold-the ethereal shades of  
night

Clamant-the silence-as blood to my ears  
The battlescreams echoes has vanished, faded into  
the past

The black sun is falling into the abyss  
with the lakes of dark blood to merge  
The sky is aflame, when I ride through the night  
as a phantom through fire I fly  
Armageddon...The final redemption of wrath

Dies Irae...
