"Bombers coming in!"

Black clouds in the horizon  
As ten thousand bombers thundering front  
The shadows of the forthcoming  
Apocalyptic war

Show no mercy, kill em all!  
Total destruction, oh, I bring you war  
Bombers diving in for the kill  
Gods of chaos, ride with me  
Ride with me, oah!

The ride of death, the way to hell  
Blood soaks, the poisoned soil  
The grim reaper, the man in black  
He's riding with me, attack attack!

"Oh... bombers coming in!"

The ride of death, way to hell  
Blood soaks the poisoned soil

The grim reaper, the man in black  
He's riding with me, I'm coming in, here comes the  
attack!

Inferno, holocaust, the bringer of death  
Blood bath in paradise, the bombers thundering front  
Over dead dominions  
Over dead dominions!
