

Noctuary "Funeral Ceremony"

Visit "[Funeral Ceremony](#)" on MotoLyrics.com

Here now I lay, in this casket, so cold...
Embraced by darkness I die alone...
Overcome by fear I attempt my escape...
Alone I die, leaving forever...

Silence, Darkness, I weep for my soul.
Bleeding, it rises away.

I am dead, in my casket, so cold...

From above I close my eyes...
I fall unto eternity...
Endless pit of darkness encases me...

Silence, Darkness, I weep for my soul.
Bleeding, it rises away.

Falling through the endless darkness,
frozen winds of the end I breathe.
