Riding the rattler  
Destination Hell  
Blades bared - Skin snaps  
Clad in hooks and razor-nails  
Like a diabolic Flesh-defiler  
Master of the swarm  
Corpse-strung - Whore-sons  
Crucified and nailed to the wall  
"Skin you alive... I'll skin you alive..."  
Butcher - Flay them  
Proceed with the slaughter  
Bone-cold  
Total dehumanisation  
Brooding over rags of skin  
A Devils burning gaze  
Rip-saw - Mutator  
A myriad of blades  
Manskinner  
Inquisitor of pain  
Leave the corpses for the crows  
The skin is what I need  
Captor  
Impassive mask staring at you  
With a sodium-glare  
Hell-ridden determination  
Corpse-plower - Carrion beast  
The slow pulse of all dying meat  
You struck a raw-deal  
Fleshless bodies crawl  
Sky turns black  
The Manskinner calls  
Termination - By the butcher's knife  
Flesh Parting like a scalped hide  
It's a butchery  
Of the first degree  
A vivisecting nightmare  
Hung and strung to bleed
