### "Metal Storm Rebels"

Roar and thunder shakes the ground  
Earth moves as damnation ram  
Mad holocaust machines and their bastard...  
... Are coming to town

Rebels from hell await the attack  
Bombers, pirates and maniacs  
Satanic butchers out of their lead, chain & metal.  
You will be dead

Disaster and doom, torment and kill  
A force of insane evil in sight  
Ready to capture, agonize and slay  
Chaotic war, aggressive noise coming up  
No piece and quiet, be prepared to fight  
'Cause... the metal storm rebels, got you in their sight

Rear and thunder shakes the ground... woaw...
