Dust from bones dries out my throat  
Blood fills my strangled lungs  
Aiwass the angel of death awaits me  
Possess my crooked corpse... Oh...

Possess my crooked corpse  
Serpent, devil  
Possess my crooked corpse  
Demons, Satan  
Possess my crooked corpse

Oh... Whao... Possess my...  
Demons from hell...

Black coffins glimmer in the storm  
I'll raise the dead from their holes  
The smell of corpses fill my nose  
I see black rivers thundering forth  
Dark powers building up for war  
Slaying the weak, possess the strong

Oh... Can you feel it, here I come

I rape the angels  
I fuck their cunts  
I rip their heads off  
Destruction of all

Oh... Come here, I rip you all

I sodomize the whores of Christ  
I burn the holy cross  
I kill their children one by one  
My need is all, unstoppable wrath  
Unstoppable wrath

Here I come "baby"... Oh...

Demons screaming, from fires linger on  
Attack the holy, destruction is sworn  
... is sworn

Oh... Yeah...

Black coffins glimmer in the storm  
I'll raise the dead from their holes  
The smell of corpses fill my nose  
Dark powers building up for war  
I see black rivers thundering forth  
Slaying the weak, possessing the strong  
... possessing the strong

I rape the angels  
I fuck their cunts  
I rip their heads off  
Destruction of all

I rape the angels  
I rip them all  
I rape the angels  
The ripper of souls

... Argh...

I sodomize the whores of Christ  
I burn the holy cross  
I kill their children one by one  
My need is all, destruction of a  
Unstoppable wrath...
