"Bad girls burn in Hell"
Engine roar and thunder blast
The wicked ripper erase your past
The whip explodes as lightning bolts
Manic slayer runs his course
The smell of leather and insane lust
Lying face down you face the dust
You're burning inside
The blade has struck
Targets flash the knife
Show no mercy
He will rape tonight
Bleeding bodies cry
He'll run you right through
Until you die
Engines roar and blast
Face the reaper and forget the past
Women scream and yell in blast
He's gonna rape you in the night
The smell of leather and insane lust
Lying face down you face the dust
You gonna burn inside
The blade has struck
Engines roar and blast
The wicked ripper gonna erase your past
Whip explodes tonight
The manic slayer gonna run you right
Oh... Sodomite
Oh... Sodomite
Engines roar and blast
Wicked runner erase your past
The whip explodes as lightning bolts
Manic slayer run his course
The smell of leather and insane lust
Lying face down you face the dust
You're burning inside
The blade has struck
"Warhordes join me now
Demons rape my sou"
