Blood runs from the spikes of war  
Retaliate  
Bring your sons to their slaughter  
Into a nameless - Shallow grave  
To the victor belong the spoils  
Enter Hell land of slime  
I live to triumph in your ruins  
Remorseless - Strike you down  
Fast forward - Corpse-shredders  
Here beats a hideous heart  
Pin-pointed core of evil  
Scorn defence - Will vaporize  
Death is the hunter  
Perfect killing machine  
Necrotic interceptor  
Cruel cause  
Condition red - Condition dead  
Weapons of war is our religion  
Born without a soul inside  
I've sworn the oaths  
The codes of conduct  
Aggressive - Deceptive we fight  
No second coming - No more warnings  
Here comes the cardinal day  
We deal in punishment where punishment is due  
You can't keep this onslaught at bay  
En mass - Lay low the ramparts  
We rise - Like a sudden storm  
So fast - Removed from existence  
In a flash - As food for the worms
