Come on get up, we'll ride until the morning  
You gonna ride my razors edge  
We gonna dive into a pit of burning warheads  
You gonna drown in a pool of boiling blood  
This time you gonna learn  
You're going down to burn  
One touch and you'll be dead  
Fist of fury in your head  
Get up death shock, it's time to hit the lights  
The alcohol is pumping in the night  
We gonna dive into a pit of burning warheads  
You gonna drink until there's fire in your head  
Fist of fury in your head  
Fist of fury in your head  
Get up shell shock, we're on to race the light  
You gonna feel the razors in the night  
We gonna dive into a pit of burning warheads  
You gonna drown in a pool of boiling blood  
This time you gonna learn  
You're going down to burn  
One touch and you'll be dead  
Fist of fury in your head  
Fist of fury in your head  
Fist of fury in your head  
Fist of fury in your head
